Functional Skills

- Project Planning and Scheduling
- Risk Management
- Resource Management
- Stakeholder Collaboration
- Leadership
- Effective Communication
- Employee coaching & Mentorship
- Team Development Strategies
- Quality Assurance
- Agile and Scrum Methodologies

Technical Skills

- Agile & Scrum Frameworks
- Jira, Confluence
- Product Roadmapping & Backlog Management
- AI Model Integration & Implementation
- Data-Driven Decision Making
- HTML5, CSS3, JavaScript
- REST APIs & API Integration
- Responsive & Cross-Platform Development
- Vue.js, Angular (Working Knowledge)
- Figma, Balsamiq, Adobe Photoshop
- Wireframing & Prototyping

PROFILE

Results-driven PMP-certified Project Manager with over 10+ years of experience leading end-to-end delivery of web and mobile products, with a strong focus on AI-driven solutions and Agile methodologies. Proven expertise in integrating AI capabilities such as intelligent search optimization and automated content moderation to enhance product efficiency and user experience. Skilled in managing cross-functional teams, defining product vision, and executing data-driven strategies to deliver scalable, user-centric solutions. Adept at stakeholder collaboration, roadmap planning, and driving continuous improvement through iterative development. Passionate about leveraging technology and AI to solve real-world business challenges and build high-impact digital products.

WORK EXPERIENCE

Mukesh Buildtech Pvt Ltd, Salem — May '25 - Present

Project Manager

- Designed and implemented an AI-based spelling correction model to enhance in-product search accuracy by automatically correcting user input errors.
- Developed and deployed a content moderation system leveraging AI to analyze text, images, and videos (NSFW detection), automating approval workflows within the product and significantly reducing manual effort.
- Integrated AI-driven capabilities into the product to improve scalability, efficiency, and overall user experience.
- Led end-to-end delivery of a mobile and web-based product using Agile and Scrum methodologies, improving user engagement and operational efficiency.
- Delivered multiple feature releases on time, consistently meeting business goals and achieving strong user adoption.
- Collaborated with stakeholders to define product vision, business goals, and detailed requirements aligned with strategic objectives.
- Facilitated Scrum ceremonies including sprint planning, daily stand-ups, sprint reviews, and retrospectives to ensure smooth execution.
- Oversaw the full sprint lifecycle, ensuring timely delivery of high-quality features and bug fixes.
- Led a cross-functional team of developers, designers, QA engineers, and UI/UX specialists, fostering collaboration and effective communication.
- Promoted a high-performance team culture by mentoring members, resolving conflicts, and removing blockers throughout the product lifecycle.

Education

2010 - 2013

Hindusthan College of Arts & Science

Master of Computer Application

2007 - 2010

Chinmaya Mission College

Bachelor of Science in Computer Science

Certificatiom

Project Management Professional (PMP) - January 2025

Certified through Project Management Institute (PMI)

Appiness Interactive Pvt Ltd, Bangalore Jun '21 - Apr '25

Project Manager

- Led comprehensive project utilizing Scrum and Agile methodologies to develop and deliver a suite of mobile and web applications, aimed at enhancing user engagement and operational efficiency.
- Successfully delivered multiple mobile and web applications on time and within budget, exceeding user expectations and achieving high adoption rates.
- Enhanced team productivity and project transparency through effective Scrum practices and Agile methodologies.
- Improved user satisfaction by integrating user feedback into iterative design and development processes, resulting in a user-centric product experience.
- Collaborate with stakeholders to understand and document the project vision, goals, and requirements for web and mobile apps.
- Create and maintain a product roadmap outlining key milestones features and deliverables.
- Facilitate Scrum ceremonies such as sprint planing, daily stand-ups, sprint review and retrospectives.
- Work with product owner to prioritise and manage the product backlog ensuring it is well-defined and refined.
- Oversee Sprint planning, execution, and review process to ensure timely delivery of features and fixes
- Lead cross-functional teams, including developers, designers, QA testers and UI/UX specialist, ensuring effective collaboration and communication.
- Fostering a positive team environment providing support and motivation to team members.
- Address and resolve any team conflicts or issues that arise during project lifecycle.

Huawei Research Institute, Bangalore Jun '18 - May '21

Lead UI Developer

- Proven ability to translate complex design concepts into responsive, accessible, and aesthetically pleasing user interfaces. Adept at collaborating with UX designers to refine and perfect design solutions.
- Successfully led a team of 12 UI developers for the development of Huawei's Business Connect application with an excellent user experience.
- Implemented performance optimisation strategies that reduced page load times by 15% and enhanced overall application performance, leading to a better user experience and increased user retention.
- Developed and conducted training programs for junior developers, fostering skill development and contributing to a more cohesive and productive team.
- Possessed extensive experience with modern front-end technologies and frameworks such as Angular, Vue.js, HTML5, CSS3, and JavaScript, along with knowledge of version control systems like Git.

Appiness Interactive Pvt Ltd, Bangalore Jun '15 - May '18
Sr. UI Developer

- Led the development of a major mobile and web applications, coordinating with cross-functional teams to deliver features on time and within scope.
- Spearheaded the development of several mobile and web applications, managing the full project lifecycle from requirements gathering to deployment.
- Coordinated with cross-functional teams, including product managers, designers, and backend developers, to deliver high-quality solutions on time and within scope.
- Developed complex features and functionalities, optimising code for performance, scalability, and security.
- Established and enforced coding standards, best practices, and development workflows to ensure high-quality code and efficient development processes.
- Conducted regular code reviews, providing constructive feedback to improve code quality and mentor junior developers.
- Participated in Agile sprints, contributing to sprint planning, daily stand-ups, and retrospectives, which improved team productivity and project delivery.

Appiness Interactive Pvt Ltd, Bangalore Jun '13 - May '15
UI Developer

- Built and maintained user interfaces using HTML5, CSS3, and JavaScript, focusing on creating responsive and visually appealing designs.
- Collaborated with UI/UX designers to implement designs and enhance user experience based on wireframes and design specifications.
- Ensured cross-browser compatibility and mobile responsiveness, optimizing interfaces for various devices and browsers.
- Worked closely with back-end developers to integrate UI components with APIs, ensuring smooth data flow and functionality.
- Documented development processes and UI components, contributing to effective team collaboration and knowledge sharing.

Appiness Interactive Pvt Ltd, Bangalore Dec '12 - May '13
Internship - UI Development

- Supported front-end development by implementing user interfaces using HTML5, CSS3, and JavaScript, focusing on responsive design and functionality.
- Participated in quality assurance efforts, testing UI components for bugs and performance issues, and assisting in resolving identified problems.
- Used Git for version control, contributing to code management and collaborating with the development team on project tasks.
- Engaged in learning activities to enhance front-end development skills, applying new techniques to ongoing projects.
- Monitored application performance and made adjustments to enhance user experience.
- Maintained code consistency and readability by following best practices and coding standards.
